

Ambulance transport service

ALABASTER FIRE DEPARTMENT

Project plan

By adding in-house ambulance transport service and not having to rely on a private transport company, the Alabaster Police Department will be able to more directly meet the needs of the city's residents.

Operating an in-house ambulance service will cut the current average ambulance response time from upwards of a hour to a few minutes.

- **A FOCUS ON SAVING LIVES AND GETTING RESIDENTS THE MEDICAL ATTENTION THEY NEED QUICKLY.**
