

Trail System Expansion

**Expansion of the Existing Buck Creek
Trail traversing Alabaster from
Veterans Park to Patriots Park**

Project Plan

The trail system expansion aims to bring more walkability and connectivity to Alabaster through the improvement of and additions to the current Buck Creek Trail. The expansion will happen in several phases starting with replacing the current gravel walkway with pavement and adding new lighting. The end goal of the project is an expansive trail system which traverses the city from Patriots Park to Veterans Park.
